Message From The Principal's Desk

Education is a life-long learning process. Learning happens all the time; not only in a pre-designated place called the school. It happens in the home, between home and school too and that is proved by all the teachers and students in the world combating one of the most sweeping crises in recent memory, Corona pandemic.

Life has many unpredictable moments, many paths and memorable times so, enjoy the surprises, explore new paths and cherish the memories.

Keeping this quote in mind it fills me with immense pleasure as our school is releasing its first E-Magazine for session 2020. We believe in the philosophy of work is worship and this has blessed us with the perseverance to work for our children tirelessly. Our hard working teachers have always strived for wellbeing of future of our students. Our school aims at all round development of our students. I wish all the success to my hard working teachers and students in life.

We are going through an unprecedented global predicament today. Each one of us and the entire world is affected by the coronavirus pandemic. Our talented and ever-willing –to- work staff, have been showing their care and concern for the students, working from home preparing notes and engaging classes online for the benefit of students. I appreciate their concern for the students and commitment to academics. They have been lending their hand in crucial administrative duties by going beyond the call of duty. I would like to acknowledge their commitment and care for the institution.

I must congratulate all the brilliantians for their constant efforts and support they have shown to the institution throughout this phase. This E-Magazine is a mirror reflecting the creativity of young minds of the school. I hope that such endeavour would continue in future as well.

The young minds should be encouraged to think and question rather than remember what is being taught. I am sure the school will provide the children the right platform for a well-rounded development.

Best Wishes

Dr. Reeta Hashia
