EDUCATION

FUN LEARNING

"Gone are the days of traditional learning methods,
So let's embrace modern learning methods !!"

Under the auspices of NEP & Quality Education with a special focus on experiential learning & holistic development of our kindergarten learners in the most play way method, BCS comes up with the magic of colourful fun-filled activities for its toddlers to develop their fine motor skills, promote discovery learning and a lifelong love for learning apart from building social skills.

Hands on Experience at NSC

"All scientific facts are easy to understand when they're discovered through experiential learning."

To make scientific learning permanent and to give hands on experience of how to control existing various viruses and vaccines, the students of Class X, XI, and XII visited the National Science Centre on 13 April 2023 and 14 April 2023 at Pragati Maidan, Delhi under the supervision of their respective teachers.

Our young learners attended a workshop on 'Antimicrobial Resistance (AMR)' wherein they learned about the minute details of AMR on animals, humans, and the environment.

Our young brilliantians also made us proud while they were made science communicator,two teams from our school were selected as winner members of workshop and thereby awarded with merit certificate and books from superheros against collaboration with world animal protection in National Science Centre,Delhi.

A Gallery visit museum was also conducted for the students which provided them an insight into the existence of prehistoric flora and fauna like Trilobites, Giant Scorpion, early birds, Dinosaurs, and Neanderthal man.

In the end, the Fun Science Gallery caught the attention of the students instantly as it was full of Hands-on exhibits explaining the fundamentals of science.

Overall the session was quite enlightening for the learners.

Taiwan - INDIAN SCHOOL

FIRST INDIAN LEADERS DELEGATE VISIT TO TAIPEI CENTER

From 20th to 25th May 2023, a delegation of 20 schools from India, including Brilliants Convent, represented by our Assistant Manager Sir Mr. Jatin Mann, travelled to Taiwan to explore educational opportunities. During their visit, the delegation was impressed by the discipline and courteousness of the Taiwanese people. They also had the opportunity to visit highly developed local schools and learn about innovative teaching techniques and inclusive education technologies, as well as observe the prioritization of health, personal responsibility, and cleanliness of school premises.

The purpose of the trip was to forge educational partnerships between the participating institutions. To commemorate the event, a certificate ceremony was held in Delhi on 31st May 2023 to showcase the successful implementation of new educational systems and mark a milestone in educational advancement.

SELFLESS SERVICE

Prasad Sewa

"Kindness is the sunshine in which virtue grows."

With this noble thought of "Prasad Sewa" , Brilliants' Convent comes up with a beautiful initiative thereby exhibiting the collective efforts of Management, staff and students towards the welfare of the society. The school has initiated to provide a meal to the needy highlighting the sustainable development goal of Quality Education which aims to produce better global citizens in the world. This act of charity has been conducted to set an example of generosity and compassion for the sake of humanity.

BETTER PLACE

CHABEEL

"Tera Kiya Meetha Lage,
Sweet is your will,
Oh God, the gift of your name alone I seek".
Keeping in mind the need of a sustainable lifestyle for conserving Mother Earth by not wasting water rather by feeding the thirsty in hot summer.
Rendering the little acts of social service and understanding human values for a positive social change, Brilliants' Convent organised a ‘Chabeel’, a social service camp to soothe the parched souls with sweet and cold water to the people. Our proud brilliantians have come forward for the noble cause of Chabeel Sewa while giving a message of humanity and kindness to society.

IMPORTANT OCCASIONS

Welcome Day

Happy Kids

“A GREAT EDUCATION BEGINS WITH A GREAT KINDERGARTEN EXPERIENCE”

To make this journey an astonishing, successful and happy experience, Brilliants’ Convent had organised “WELCOME DAY” for our tiny toddlers of Nursery wing who have entered to our school campus. The Nursery wing was gleaming with fresh buds that came to start their new inning. This beginning was celebrated with fervour. On 6 April 2023, our blue area was decked up with colourful balloons and different kinds of props. The teachers welcomed all the Children with great zeal and zest. All the children came dressed in beautiful and colourful attire. Their beginning was celebrated as a festival. A special puppet show was organised to add extra charm. The kids thoroughly enjoyed themselves by tapping their feet on the music. Various fun activities were also organised for our little toddlers along with freeze dance , musical chair and considerably more. Our little champs recited rhymes with joyful expressions. They were overwhelmed by looking at the props.At the end of the session, teachers gave gift hampers to the children and affectionately welcomed the new comers by holding their hands and accompanied them to their classroom with utmost love and care.Welcome Day celebration has been a foundation for the positive relationship among children of different age groups.Our respected Principal ma’am Dr. Reeta Hashia greeted the students and showered her blessings for their bright future.

Mother's day

Under the umbrella of Sustainable development goals (SDG), BCS comes up with a unique idea of celebrating Mother's Day #mothersday in the most experiential way by introducing the Health and Wellness Club where a Mango Fest competition was organized for our beloved mothers.

Emphasizing SDG -04 Quality Education as per NEP 2020, A book fair was organized inside the school premises to provide an opportunity for our global citizens for exploring different books & enriching their vocabulary.

This experiential show didn't conclude here.

With a goal to aware our global learners about the need to conserve our Mother Earth for sustainable growth and lifestyle with an emphasis on the idea of the 3Rs (reduce, reuse and recycle), A "Best Out of Waste Competition" was organized for the mothers of the wards wherein a proper time limit has been allotted to them for creating something meaningful using eco-friendly materials.

It was an exhilarating day as a Talent hunt was also organized to make this day a bit more special and memorable.

A prize distribution ceremony was also conducted to encourage the efforts of winners and Participants have been awarded with exciting gifts.

The idea of the day was to generate awareness about sustainable growth and development while rendering quality education with hands-on experience to the learners.

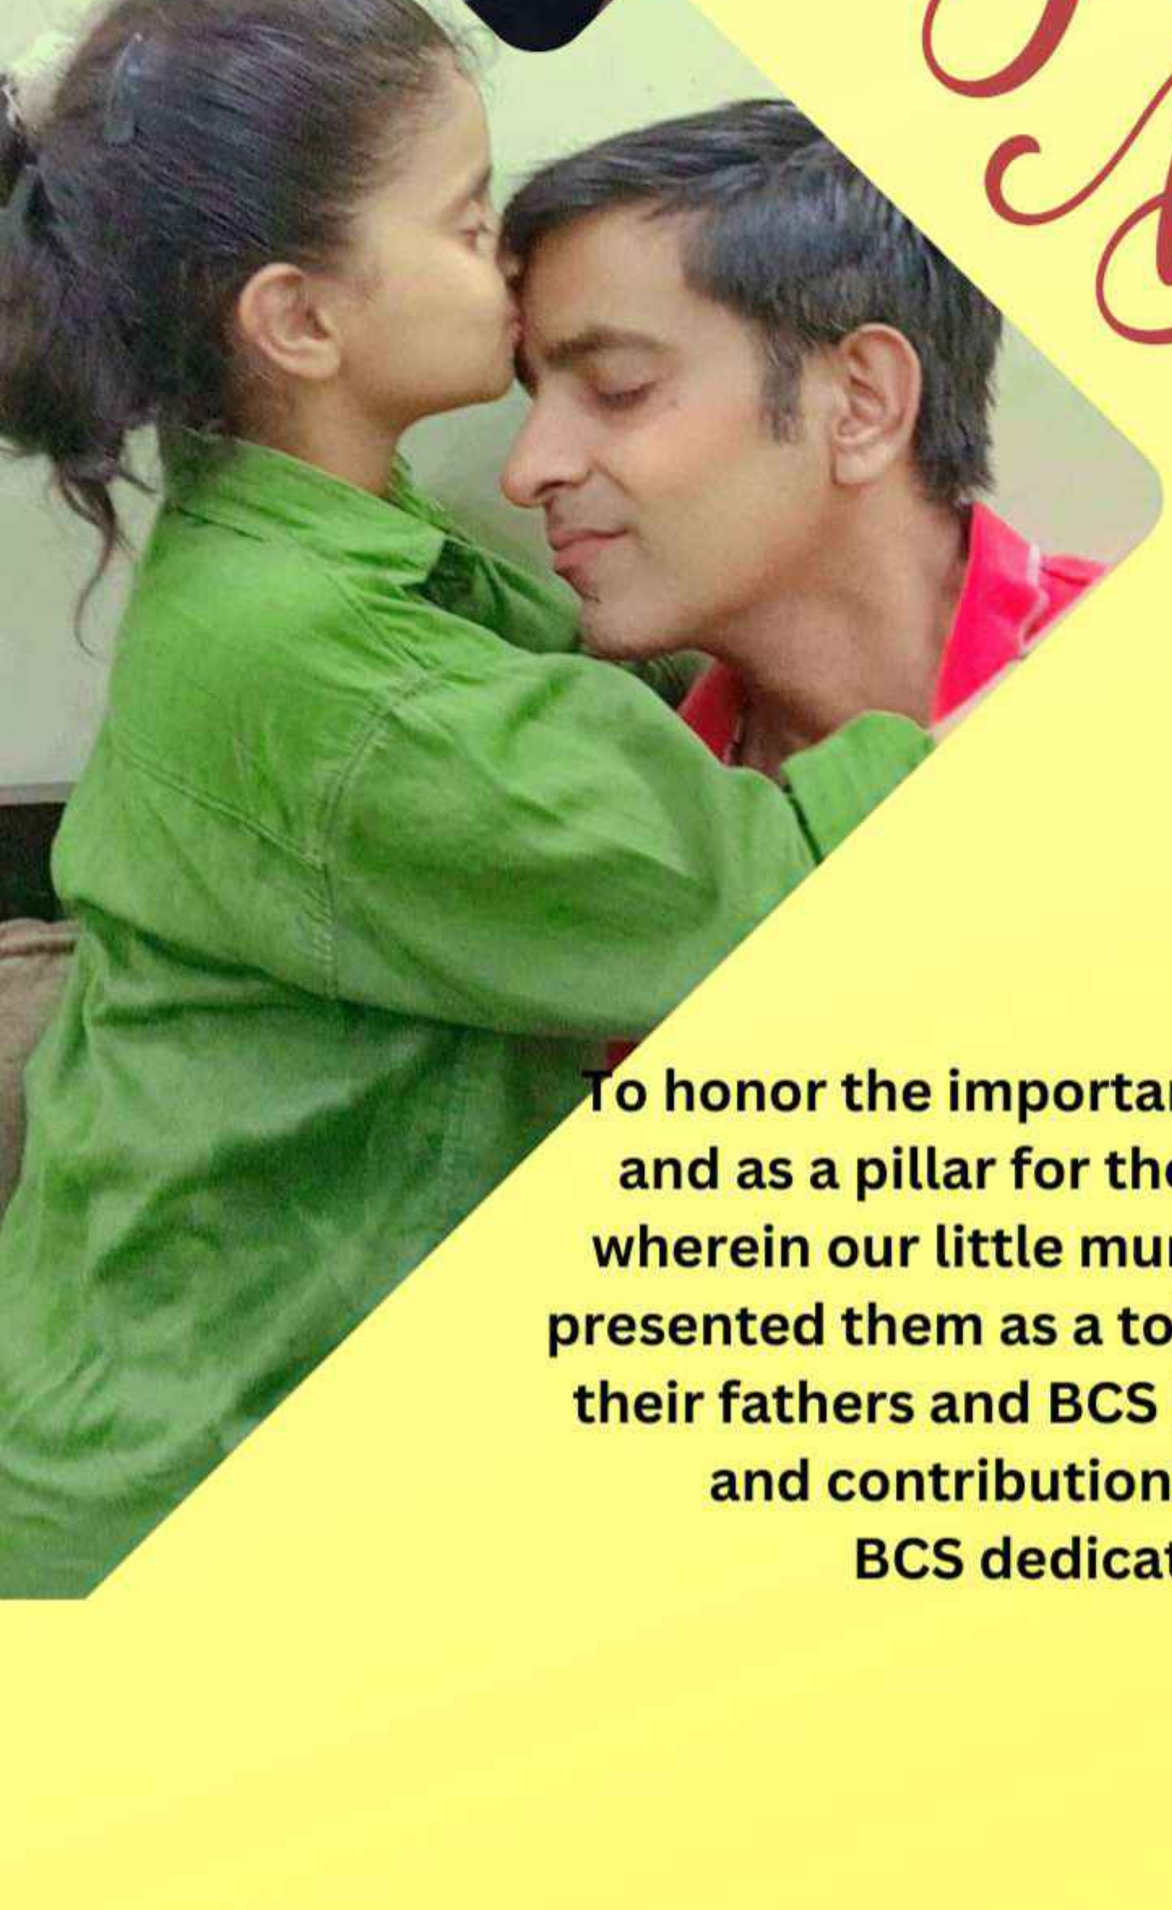

Over all the day it proved to be a huge success for everyone.

Father's Day

To honor the importance that a father plays in the family as a protector and as a pillar for their family members, BCS celebrates Father's Day wherein our little munchkins have performed some craft activities and presented them as a token of love and gratitude to make it remarkable for their fathers and BCS heartily recognizes the endless efforts, initiatives, and contributions made by the fathers towards their children.

BCS dedicates some beautiful lines for the fathers -

"जिससे सब कुछ पाया है,
जिसने सब कुछ सिखलाया है,
कोटि कोटि नमन ऐसे पापा को,
जिन्होंने हर पल साथ निभाया है।"

Beat Plastics

Under the campaign #BeatPlasticPollution

Brilliants' Convent tends to focus on solutions to plastic pollution by generating an awareness of the need to work on Sustainable development goals 2030 with a strong objective to preserve our Mother Earth for future generations and to live a sustainable lifestyle.This theme of beating plastic pollution is an initiative to raise awareness about the production, use, disposal, and effects of plastic.

Earth Day

Save The Nature

Our School celebrated World Earth Day on 22 April 2023 intending to create awareness about protecting our planet and preserving the environment.

Saving water, reducing pollution, protecting wildlife, plants, and trees, and recycling waste are just a few means to save our environment. A continuous and collective effort of each individual including children will make a huge difference. With this thought, Our Students performed poster making activity. Few Students had beautifully enacted the role play activity on the theme- Of saving Earth. Students had also sung a song to spread the message of stopping using plastic bags, conserving wildlife and plants, and save the planet of life. Overall, it was a wonderful experience.

BCS AT ITS BEST

Inspiring Education Hero Award

FOR

For Exceptional Contribution towards the Education Section

We congratulate Madam Principal Dr. Reeta Hashia for being conferred with the 'Inspiring Education Hero Award' by the Educational Growth Networking India (EGN) for her exceptional Contribution and selfless Service to the education sector.

The new accolade is another feather in the Cap of the reformer of the education system.
