HOLIDAYS HOMEWORK – 2021

Love the Earth ,

it's the only Choice

"If you think the environment is less important than the economy, try holding your breath while you count your money".

- Dr. Guy McPherson

Summer Vacations.....!!!

It's time to stay up late. It's time to play all day and not think about tests and worksheets. Yes it's time to relax and enjoy. It's time to enjoy reading books with your grandparents. After all summer holidays are here. Holidays are great but schoolwork can be fun filled and inspiring too! So here are a few interesting activities to keep you going, through the summer break.

So, it's a humble request to parents to take a positive interest, as the wards learn a lot when the children learn by doing. In fact, your involvement too will add an element of fun and excitement to the project work. Summer Holiday Homework is an initiative on our part, to inculcate innovativeness, creativity and interest in the tasks assigned to our students.

Note: Holiday Homework should be well labelled and submitted in the first week after summer vacations in a Pdf format.
