Brilliants' Convent, owned and managed by the 'New Star Education Society' has been successfully moving ahead after completing it's 16 years of Yeomen service, what comes to my mind is that:

"What you are looking for is,

Not out there, It's in you."

Intense hard work along with great skills shall help you win one success after another.

What I believe is that a truly successful man will keep trying and keep struggling until he perfects his art.

The good thing about working hard is, that for people who are driven towards their goal can enjoy their hard work and consequently, the work does not seem unduly grueling to them. When you begin to work hard towards achieving success, make sure to work smartly too. An intelligent working technique, along with relentless effort will go a long way in helping you achieve the success that you always desired.

Nothing in this world comes easily, least of all, success. Therefore, you need to remember that there are no short cuts to success. Hard work, complimented with an intense desire to struggle and to achieve success is the only sure shot way of reaching success that you have always wanted.

"With Warm wishes and god's blessings"

The School is a place where children are encouraged to say **"I see it, I get it, I can do it."**

Our goal at BCS is to provide an enriching, engaging, and challenging curriculum that will prepare students for success. We believe that students, parents and teachers all play a vital role in helping students reach their greatest potential. Parents are encouraged to check their progress regularly on our parent portal, which can be accessed via our school website. Students are encouraged to take advantage of the many resources available to them- their teachers, the library, the computer labs, and the smart classes.

To channelize the creative aspect of the child the school has come up with the school magazine. This is not just a means for a school to communicate its thought but it also highlights the success and achievement of its pursuits. It gives an insight to ones thought and creativity through varied expressions. Our children have been able to leave their imprint in the path they have walked till now and the school has carved a niche of its own in the educational hub.

The school where the quality matters the most we have tried to reflect the kaleidoscope of learning, adventures, creativities and positive approach of our young minds through writing and drawings. I hope this effort of our minds will serve as a stepping stone towards the many mile-stones we have to cover in pursuit of excellence.

**"If your hard work is your weapon, Success will be your slave"**

May the Almighty pour showers of blessings upon each creature on this earth!!!

"To be a strong hold in the dark to another in the time of need, to be a cup of strength of a human soil in a crisis of weakness, is to know the glory of life."

Very few have fully realized the wealth of sympathy, kindness and generosity present in the soul of a child. The effort of every Educator should be to bring out the hidden talent, skills and confidence of the child and Brilliants' Convent School is an excellent example where everyone strives indefatigably for this.

We are pleased to present you the next season of 'DISHAYEIN' the school magazine of Brilliants' Convent School. Enjoy every moment because in life there aren't rewinds, only flashbacks. For we have worked so diligently to bring up exhilarating flashbacks of the inception of the School, its history and the events and achievements of the session 2015-17.

Wishing you all a Happy Reading!

# Head Girl & Head Boy

Year 2015

Year 2016

**"Leadership is the capacity to translate vision into reality"**

It's a great privilege to be elected as a Head Boy and Head Girl of such a reputable Institution. It embodies all that is great about this School: the opportunities, the responsibilities and among all the energy.

When we got elected we just thought of the hopes & dreams of scaling new heights, where each student is taught to strive for the goals they wish to achieve.

To be a member of school cabinet it is not just a reward for an individual's achievements over his/her education at Brilliants' Convent Sr. Sec. School. It is a constant interaction with the community as a whole, from mentoring the younger students in the school to serving as ambassadors of the school to parents and visitors.

Lastly we wish that all of you shall show faith in us, we will help you and guide you time & always, because this is one in a lifetime chance to serve where you have been made to stand high, dream and perform. It is an honor and privilege to REPRESENT this excellent institution as the Head Boy and the Head Girl.

## STUDENTS INTERACT WITH WRESTLER SUSHIL KUMAR

HT Correspondent

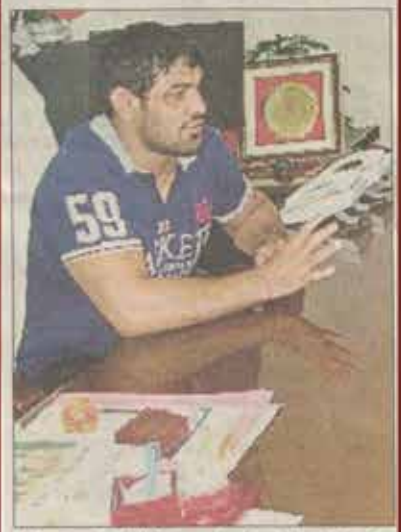

**NEW DELHI:** The students of Brilliant Convent School, Pitampura, interacted with medal-winning Indian wrestler Sushil Kumar, at the Chattrasal Stadium recently.

The Olympics medallist greeted the students with a warm welcome and interacted with them wholeheartedly.

Students left no stone unturned while interviewing him and Kumar answered each and every question with patience. He gave many interesting answers during the interview session and some of them even inspired students.

Students were thrilled to receive an autograph from the boxer who is a role model for many. They also received small gifts when the visit came to an end.

The interactive session with Kumar inspired students to work hard and achieve great feats in life.

Wrestler Sushil Kumar inspired students to keep up their positive spirit, in an interactive session, at Chattrasal Stadium

## Shaping the school culture

**Reeta Hashia, Principal of Brilliants' Convent Sr Sec School, Pitampura touches upon various elements and requirements of the current classroom programme**

The CCE pattern definitely has destressed the children by encouraging learning through implementation of a variety of teaching aids and techniques. It has helped to recognise and encourage specific abilities of students, who do not excel in academics but perform well in co-curricular areas. With the introduction of this scheme, students are being assessed on regular and continuous basis in diversified aspects.

### EDUCATIONAL REFORMS

New reforms in education are rising at high pace but one cannot ignore the neglection of rural areas in respect of those modern reforms. New technologies of education are rising but mainly in urban areas only. Rural sector is not having much financial and human resources to accommodate such hi-tech reforms in education. There is an urgent need to improve human and physical facilities in rural areas to avoid centralisation of educational reforms in urban areas.

Smart class with smart teaching is necessary. It involves two sensory neurons- audio and visual in action, thereby, encouraging a student to think and not memorise. The combination of both brings abstract and difficult curriculum concepts to life inside a classroom.

There is no second thought in accepting that discipline among students is deteriorating these days. But I believe disciplining a student is a very patient task which involves imparting knowledge and skills.

A major flaw I have observed is in 'No detention Policy' aimed at removing the pressure and burden off the shoulders of students. As a result, students remain carefree since they know without working hard, they would be able to promote themselves to an upper grade. There is an immense need to initiate a policy whereby moral education should be imparted compulsorily to students, that too not only on papers but by imposing them in real life situations. Criminal cases occurring in the society highlight the need to develop good citizens through educated system.

## Keep your surroundings clean

The Eco Month was celebrated with at **Brilliants' Convent Sr Sec School, Pitampura**. The students of class-VI took a green pledge to make their surroundings clean. A poster making activity was organised for the students of classes VIII and IX with an aim to spread awareness among students and teachers. A cleanliness drive was organised and saplings were also planted. A rally was conducted in which the students visited outer Ring Road area of Pitampura to promote the message of cleanliness. The students of class VI made beautiful rangolis on theme 'Clean Environment'. An earthen pot decoration was also organised for the children of class VII using eco-friendly material. The sole purpose of the activities was to create awareness about the importance of keeping the environment free from probable hazards. School principal Reeta Hashia appreciated the efforts of students.

**Brilliants' Convent Sr Sec School**

Brilliants' Convent Sr Sec School, Pitampura organised a special event in which various important stories from the great epic 'Ramayana' were enacted by children of the primary wing. The event aimed to teach students the value of family bonding, sacrifice, love and care. Poems were also recited which were based on the message of 'Doing good and receiving good.' The programme was applauded by the management. School principal Reeta Hashia urged children to follow the path of righteousness.

# Women Empowerment: Winds of Change

Women empowerment has become the buzzword today with women working alongside men in all spheres. They profess an independent outlook, whether they are living inside their home or working outside. They are increasingly gaining control over their lives and taking their own decisions with regard to their education, career, profession and lifestyle.

With steady increase in the number of working women, they have gained financial independence, which has given them confidence to lead their own lives and build their own identity. They are successfully taking up diverse professions to prove that they are second to none in any respect.

But while doing so, women also take care to strike a balance between their commitment to their profession as well as their home and family. They are playing multiple roles of a mother, daughter, sister, wife and a working professional with remarkable harmony and ease. With equal opportunities to work, they are functioning with a spirit of team work to render all possible co-operation to their male counterparts in meeting the deadlines and targets set in their respective professions.

Women empowerment is not limited to urban, working women but women in even remote towns and villages are now increasingly making their voices heard loud and clear in society. They are no longer willing to play a second fiddle to their male counterparts. Educated or not, they are asserting their social and political rights and making their presence felt, regardless of their socio-economic backgrounds.

While it is true that women, by and large, do not face discrimination in society today, unfortunately, many of them face exploitation and harassment which can be of diverse types: emotional, physical, mental and sexual. They are often subjected to rape, abuse and other forms of physical and intellectual violence.

Women empowerment, in the truest sense, will be achieved only when there is attitudinal change in society with regard to womenfolk, treating them with proper respect, dignity, fairness and equality. The rural areas of the country are, by and large, steeped in a feudal and medieval outlook, refusing to grant women equal say in the matters of their education, marriage, dress-code, profession and social interactions.

Let us hope, women empowerment spreads to progressive as well as backward areas of our vast country.

# Students Life

Student's life is full of fun
work and play.
Their day begins with a prayer
and, ends with play.

They go to school with a heavy bag on their back,
and water bottles in their hand.
They sit in the class and toil all day,
and learn about millipedes that coil all day.

In school they make many friends,
and learn many trends.
They even learn values
of love and life.

They study all day
and are bright like the sunray
they can even swim
like the fish on sea-bay.

Studies develop brainpower,
Sports develop willpower.
They can do both
without any pain!

They use pens,
they use papers.
They can draw many things
and make many colourful rings.

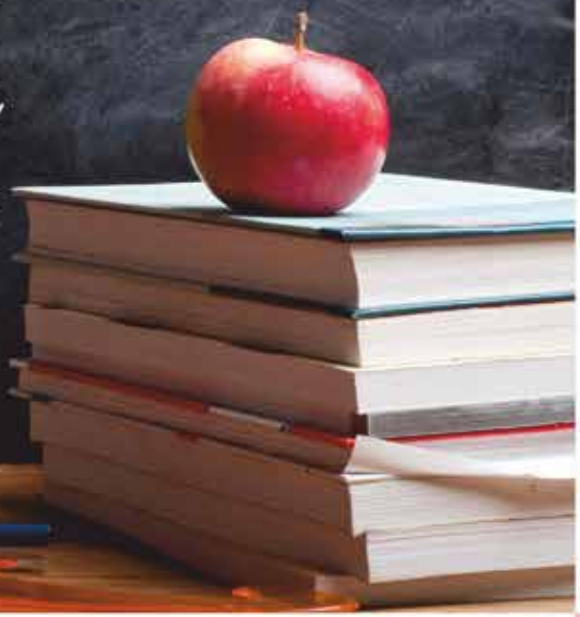

But when March month comes,
they study all day
they work for appreciation
and sacrifice lot of recreation.

East or west
Students life is the best,
they can start their day with a prayer
and end with lots of play!

# A Teacher for All Seasons

*A Teacher for All Seasons*
*A teacher is like spring,*
*Who nurtures new green sprouts,*
*Encourages and leads them,*
*Whenever they have doubts.*
*A teacher is like summer,*
*Whose sunny temperament makes studying a pleasure?*
*Preventing discontent.*
*A teacher is like fall,*
*With methods crisp and clear,*
*Lessons of bright colors and a happy atmosphere.*
*A teacher is like winter,*
*While it's snowing hard outside,*
*Keeping students comfortable,*
*As a warm and helpful guide.*
*Teacher, you do all these things,*
*With a pleasant attitude;*
*You're a teacher for all seasons,*
*And you have my gratitude!*

# Importance of Education in Society

Education, if looked at beyond its conventional boundaries, forms the very essence of all our actions. What we do is what we know and have learned, either through instructions or through observation and assimilation. When we are not making an effort to learn, our mind is always processing new information or trying to analyze the similarities as well as the tiny nuances within the context which makes the topic stand out or seem different. If that is the case then the mind definitely holds the potential to learn more.

While most feel that education is a necessity, they tend to use it as a tool for reaching a specific target or personal mark, after which there is no further need to seek greater education. Nonetheless, the importance of education in society is indispensable and cohering, which is why society and knowledge cannot be ever separated into two distinct entities. Let us find out more about the role of education in society and how it affects our lives.

Receiving a good education helps empower you, thus making you strong enough to look after yourself in any given situation. It keeps you aware of your given surrounding as well as the rules and regulations of the society you're living in. It's only through knowledge that you can be able to question authority for its negligence or discrepancies. It is only then that you can avail your rights as a citizen and seek improvement in the structural functioning of governance and economy. It's only when a citizen is aware about the policies of its government can he be able to support or protest the change. As a whole, people can bring about development only when they know where improvement is necessary for the greater good of mankind. Education helps you understand yourself better, it helps you realize your potential and qualities as a human being. It helps you to tap into latent talent, so that you may be able to sharpen your skills.

# O Rain! O Beauty!

*O Rain! O Beauty!*
*Hark! Approaches the season of melody*
*With dresses naturally adored*
*Rain appears as summers remedy*

*The monsoonal voice soon roared*
*Raindrops chortled with happiness*
*While the beauty at monsoon*
*Shone with newness*

*The Trees dazzled in their monsoonal dresses*
*O rain! Clad in bounding garments of grace*
*Do you, by the lane travelling you are leave any trace*

*Of your beautiful moments*
*Or do just they too pass away*
*And in a touching tone with melancholy*
*To enliven the nearing end rain comments*

*No my boy in my heart they sway*
*And I share happy jolly.*
*Blends of moments you send.*

# Teacher

'Teacher' - a word that takes me back to the start,
the start of my very first day at school.
I tightly clenched my mother's hand,
I was afraid to let her go.
But suddenly somebody held my other hand
and all my fear flew 'cause there was someone to understand.
She wiped my tears and took me to class.
It's when my grooming starts.
I understood that a teacher is the second mother or father I had,
for which I'm still glad.
I am glad that I lived under their guidance.
They taught me all, all they had.
All the manners and values I have are just because of them.
In my growing life, they are the stem.
Like a tree, I have reached heights,
for my strength re-unites.
Teachers are my preachers,
they'll live in my heart forever.
For they have given me strength to endeavour.
They are my most precious treasure.

**Vanshika Sharma** *(Class - VIII)*

# Exams

Children shiver with fear
as the exams draw near
Eyes filled with tears
for wasting a whole year
had they worked hard earlier
All would have been happier.
If you wish to secure marks that are rosier.
Children, do not feel the fright.
Face the exams with all your might.
Go and reach the stars.
Victory will be yours.
We are like the food and the education is the ingredient.
We are like the trees and the education is the leaves.
We are the players of the game of education.
